This integrated solar battery storage cabinet is engineered for robust performance, with system configurations readily scalable to meet demands such as a 100kwh battery storage requirement.

Available in both 100kWh and 215kWh capacities, this modular system integrates power modules, batteries, cooling, fire protection, and environment monitoring in a compact outdoor cabinet.

This modular powerhouse seamlessly integrates AI-powered intelligence for optimized operation and cloud-based management for effortless control. Maximize safety with features like single-cluster fine ...

Patented outdoor cabinet protection design, optimized heat dissipation air duct, protection against sand, dust and rain; The front and rear sides are open for maintenance, which is convenient for the layout ...

The Air-Cooled 100KWh Outdoor Cabinet Series C& I Energy Storage System features an integrated design that combines batteries, BMS, EMS, modular inverter, and fire protection system into one ...

This integrated outdoor cabinet features lithium iron phosphate (LFP) batteries, modular PCS, EMS, power distribution, fire protection, and an advanced liquid cooling system that enhances thermal ...

Our outdoor integrated energy storage cabinets are available in air-cooled and liquid-cooled configurations, designed for reliable performance in harsh environments.

Our 50KW/100KWH outdoor cabinet energy storage system, with its excellent performance and thoughtful design, is the ideal choice for outdoor energy storage applications.
