1500V Communication Power Supply Rack for Data Centers

Title: 1500V Communication Power Supply Rack for Data Centers
Generated on: 2026-03-13 23:34:24

Partner with ABB to power your data center operations 24/7 with solutions that are space-saving, time-saving, energy-saving, cost-saving and infinitely scalable.

From powering the building to powering individual racks, HARTING connectors enable a reliable chain of power throughout a data center. Eliminating hardwired (bolt-in) connections shortens the critical path. ...

Suitable for both the bench-top during product design and development, as well as rack mount ATE systems during QC and burn-in testing and during production, semiconductor testing, ...

These devices ensure clean, stable power reaches every server, switch, and storage device in your racks, while offering the monitoring and control capabilities vital for modern data center management.

All models are CE and UKCA marked in accordance with the Low Voltage, EMC and RoHS Directives, have worldwide Safety Agency approvals (UL/cUL/IEC/EN 61010-1) and offer a five year warranty.

This series high power programmable DC power supply adopts high frequency isolation and active PFC design, which makes it can achieve high efficiency at any output point.

CyberPower manufactures high-quality rackmount uninterruptible power supply products for consumers and IT professionals.

Advanced Energy"s Artesyn iLS1500 series is a programmable DC power supply with a single 1500 W output. With 12-bit D/A & A/D converters embedded, the power supplies come with the ...
