The construction characteristics of the recombination type lead-acid electric accumulators (valve-regulated hermetic accumulators); the absence of acid fumes and the virtual absence of gaseous ...

Exponential Power's Battery Cabinets & Enclosures provide durable, secure solutions for telecommunications and industrial applications. Designed to protect battery systems, these cabinets ...

VRLA (Valve Regulated Lead Acid) batteries are lead batteries with a sealed safety valve container for releasing excess gas in the event of internal overpressure. Their development was aimed at limiting ...

Our assembly equipment handles automotive battery applications from car to truck and covers all SLI (starting, lighting, ignition) batteries.

Specializing in robust, efficient lead-acid battery production equipment--from grid casting to formation lines. Automate workflows, enhance safety, and meet industry standards for automotive, industrial, ...

We manufacture production lines for lead-acid batteries - for your high quality automotive, industrial and motorcycle battery production, tailor-made in Europe.

DataSafe HX battery cabinet systems are factory pre-wired to minimize installation time. The cabinet design optimizes the overall footprint. DataSafe XE batteries, manufactured with Thin Plate Pure ...

By adapting to today's technologies, we manufacture unmanned - fully automatic lead-acid battery assembly and finishing lines, focused on efficiency and quality, and elevate your company's productivity.
