Does China's Yangtze River economic belt have a new economic path?

BEIJING, Jan. 5 -- China's Yangtze River Economic Belt, a pivotal economic powerhouse, has seen its regional GDP more than double in the course of the past decade, while steering toward a new path that prioritizes ecological protection and green growth.

What is the 'electrification of the Yangtze River' initiative?

ty advancement of the shipping industry. In June 2023, representatives from 13 provinces and cities along the Yangtze River unveiled the "Electrification of the Yangtze River" initiative. This move is pivotal for achieving China's "dual carbon" goals, enhancing the high-quality growth of Yangtze River shipping, and supporting the "

How can the Yangtze River basin meet its 2025 environmental targets?

s and reducing nitrogen oxide emissions. Adopting these cleaner ships will assist the Yangtze River Basin in meeting its 2025 environmental targets: reducing PM2.5 concentration in cities at the prefectural level and above by 10% relative to 2020 and cutting total nitrogen oxid

What is Yangtze River 3 Gorges No 1?

ransition and promoting economic growth. As a result, "Yangtze River Three Gorges No. 1", the world's largest pure electric cruise ship, made its maiden voyage in March 2022 and the world's first 700 TEU battery c

This integrated cabinet-type energy storage system is mainly composed of the battery, battery management system (BMS), PCS, monitoring system, fire-proof system, and temperature ...

The Yangtze corridor is emerging as the world's largest clean-energy trade route, powered by HVDC, solar, and battery-electric vessels.

The economic belt comprises 11 provincial-level regions along the Yangtze -- the longest river in Asia -- stretching from Sichuan and Yunnan provinces in western China to economic ...

This compact lithium battery system cabinet boasting 30KW power and 61KWh capacity delivers efficient, long-lasting performance, ideal for on-grid peak load shifting and powering remote small ...
