It adopts door-mounted embedded integrated air conditioning, which does not occupy cabinet space, improves the available space of outdoor cabinets, has better structural integrity at the ...

Ideal for microgrids, rural and remote areas, large-scale manufacturing, farms, and EV charging stations, the FlexiO series is a highly integrated battery energy storage system (BESS) engineered to optimize ...

1075kWh battery storage with 500 kW rated AC output, ideal for commercial and industrial loads.

The Microgrid System comprising four Galaxy 261 cabinets and an MPS microgrid hybrid inverter, builds on the advantages of full-function integration by combining EMS, PCS, and BMS in a compact design ...

Housed in a weatherproof outdoor cabinet, this compact system offers easy installation and reliable operation. It is ideal for small-scale microgrid applications such as villages, telecom stations, and ...

Easily upgradable from 500kW to 1MW of energy storage, storing up to 3.8MWh of energy, enough to power an average 3,600 homes for one hour.

The SFQ Micro Grid PV Storage Cabinet SCESS-T 500KW/1075KWH/A is a high-performance storage system that prioritizes safety and reliability.

Available in both 100kWh and 215kWh capacities, this modular system integrates power modules, batteries, cooling, fire protection, and environment monitoring in a compact outdoor cabinet.
