What is a solar generator?

Solar generators are the ultimate solution for portable, quiet, and free renewable power. Perfect for keeping your home running during blackouts or powering devices on your off-grid adventures, solar generators harness the sun's energy to provide clean, reliable electricity wherever you are.

How much does a solar generator cost?

Since solar-powered generators are generally expensive, I've gathered some inexpensive options with a good online reputation. This post goes over three of the cheapest solar generators (aka portable power stations) that range from 150-200Wh of battery capacity and cost between \$100 and \$140.

Who makes sollant generators?

Sollant is a prominent manufacturer of generators, offering a wide range of products including diesel industrial generators, portable generators, and towable diesel generators, with power outputs ranging from 8kw to 410kw.

What is the heaviest solar generator?

This is important because the 166Wh version will be able to be more versatile in terms of where you can go with it. At 5.5 lbs, it is the heaviest solar generator being reviewed, but it is also still only 5.5 lbs and is small enough to fit in a standard backpack.
