When those situations arise, Bison ProFab manufactures cooled & heated industrial weatherproof enclosures designed to protect valuable equipment from damage caused by harsh temperatures, ...

The SIMN XHH Series represents the pinnacle of precision environmental control technology, combining advanced temperature regulation with intelligent humidity management in a compact cabinet design.

Designed to meet the demanding requirements for precise humidity and stability, Advanced engineered design incorporates the latest in cabinet, refrigeration, temperature control and monitoring features.

Constant climate chambers are available in different sizes and with different temperature and humidity ranges. Before purchasing, you need to consider in detail the applications for which you need the unit.

A low-pressure water vapor generator controls humidity and allows for greater temperature regulation than humidity produced through steam generation. All cabinets are designed for reliable performance ...

The humidity inside the cabinet exceeds the limit, the constant humidity module is activated, and the humidifying pad is activated, with a lifespan of more than 5 years

A constant temperature is the best precondition for a long service life and high reliability of every electronic component. It is important that enough sufficiently cooled air flows past the components, ...

Keep insulated tools, PPE, and test instruments within a safe operating envelope. Our climate controlled storage cabinets deliver stable temperature and humidity, so rubber, polymer, and composite ...
