Power generation data was drawn from our African Energy Live Data platform, which contains project level detail on power plants and projects across Africa. The map is presented as a ...

The objective of our analysis is to assess the conditions under which an energy system meets both a fast-growing demand and a low-carbon electricity mix in Cote d'Ivoire.

National gross generation was estimated at 12,147.9 GWh, up 6.3 percent compared to 2021. Electricity capacity stood at 2,548 Megawatts (MW) with 879 MW for hydroelectric plants and ...

- Ivory Coast's Energy Companies: Eranove leads Cote d'Ivoire's power generation (39%), while Foxtrot and CNR dominate gas and oil production. Key players include CIE, CIPREL, and Azito in electricity, ...

Decades of investment in electrical power generation have paid off in Cote d'Ivoire. The country's installed capacity exceeds that of most of its ...

Cote d'Ivoire framework has allowed private investment in energy production since the 1980s and as of 2021 three IPPs are active (Azito Energie, Aggreko and Ciprel).

Most of Cote d'Ivoire's primary energy demand is covered by local oil refinery supplies and domestic gas production. Almost 60% of the population had access to electricity in the country in 2017, a 10 ...

This project will help the government of Cote d'Ivoire to achieve its objectives, in particular increasing the share of renewable energy in the energy mix (45% by 2030, including large-scale hydroelectricity) ...
