Featuring 215kWh of LiFePO4 storage and a 120kW PCS, this system is engineered for industrial parks and commercial complexes that require high-power energy management.

20-120kWh modular battery storage system for commercial, solar, and backup applications. Scalable, high-voltage solution with LiFePO4 safety and BMS.

It stores solar energy during the day and supplies power at night or during peak hours. By taking advantage of peak/off-peak electricity rates, it's perfect for factories, farms, shopping malls, EV ...

Business scope covering diversified models of solar panels, hybrid inverters, lithium battery, solar power systems, etc. Anern has strong supply capacity with a fast delivery time and the shortest delivery ...

A: By air door to door (6-12 days): FEDEX, UPS or DHL, suitable for urgent small order.

The 120 kW automatic switching cabinet integrates STS-based control, protection, and monitoring functions to enable safe and automatic grid-connected and off-grid operation works with energy ...

A BESS cabinet (Battery Energy Storage System cabinet) is no longer just a "battery box." In modern commercial and industrial (C& I) projects, it is a full energy asset --designed to reduce electricity ...

How long can this system power our critical operations during a blackout? Backup duration depends on your load. The 120kWh capacity can, for example, power 10kW of critical loads (servers, ...
