Our outdoor telecom equipment cabinets have already been delivered to other European countries as test samples. At the moment, we are awaiting their verification and the finalization of ...

Whether you need a compact fiber distribution unit or a large UPS enclosure, each outdoor telecom box can be configured to support integrated power, fiber optic, and data systems within our facility.

Designed to save deployment cost and time, our innovative solutions include hub collapse, battery backup, composite mounting platforms and modular series cabinets. Modular capability helps future ...

Weatherproof outdoor inverter cabinet for telecom applications. Supports solar input and backup power for stable operation in off-grid or hybrid systems.

Each cabinet undergoes pre-installation, configuration, and joint testing before delivery. It features reliable electromagnetic shielding, thermal insulation, anti-theft design, and an IP55-level ...

Our professional Sales staff and CAD-Engineering team are ready to collaborate on state-of-the-art designs, ensuring competitive pricing and guaranteed delivery. Note: Front and rear sets of rails ...

Discover how a grid-connected photovoltaic inverter and battery system enhances telecom cabinet efficiency, reduces costs, and supports eco-friendly operations.

Solar Module systems combined with advanced energy storage provide reliable, uninterrupted power for off-grid telecom cabinets. Continuous power availability ensures network ...
