How does Cyprus' recovery plan support the digital transition?

Cyprus' recovery and resilience plan supports the digital transition. Investments and reforms support connectivity by enhancing access to communication infrastructure and supporting an inclusive digital transformation.

What's new in Cyprus's plan?

The revised plan has a stronger focus on the digital (24.6 % of the funds 3 vs 23 % before) and green (45 %, vs 41 % before) transitions. Measures under Cyprus's plan are to be completed in 2026. Cyprus has so far received 19.8 % of the resources in the form of pre-financing and one payment for grants and loans (below the EU average).

How much money does Cyprus need to implement repowereu?

For the implementation of its REPowerEU chapter, Cyprus has requested a EUR52 million transfer from the provisional allocation from the resources of the Brexit Adjustment Reserve, on top of its EUR52.5 million allocation in REPowerEU grants. For those amounts, Cyprus has requested on 1 September 2023 a pre-financing of 20 % of the chapter.

How will Cyprus improve the health care system?

Significant investments and reforms aim at increasing the efficiency, accessibility and resilience of the health care system, by investing EUR46.5 million to upgrade state hospitals. Concerning the labour market and young people, Cyprus will invest EUR15 million in reskilling and upskilling and EUR50.4 million in upgrading school infrastructure.

In 2020, the Council recommended that Cyprus take all necessary measures to effectively address the pandemic, sustain the economy and support the ensuing recovery.
