Almaden is focusing on ultra-thin glass-glass solar module development and is striving to bring the customers the most competitive products with high added value.

Discover durable glass-glass solar modules with a service life of over 50 years, high efficiency and versatile application options.

The project uses 6,645 pieces of Raytech double-glass PV modules and is expected to generate approximately 1.3 million kWh of electricity annually, inputting more green and clean energy ...

The main activity is the development, production and supply of innovative solar cell systems and solar modules. From Black frame to Full black, from transparent to glass-glass included MWT graphene ...

A special technology for your specific needs: Solar cells have a much higher protection from breakage as they are in the middle of a laminated safety glass (figure 1).

In the ever-evolving world of photovoltaic technology, double glass solar modules are emerging as a game-changer. By encapsulating solar cells between two layers of glass, these modules offer ...

Solarwall is your expert partner for photovoltaic glass and PV modules for your building project. Visit our site to learn more about our solar glass solutions.

As a pioneer in dual-glass technology, Trina Solar has many years of extensive hands-on experience from over 3GW Duomax module installations worldwide. The Duomax series offers high reliability ...
