What are solar rebates & incentives?

Rebates and incentives are a crucial way to encourage broader adoption of solar energy and full home electrification across the country. These incentives will typically come from your utility, state government, or the federal government in the form of tax credits, property tax abatements, one-time rebates, or performance-based rebates.

Are there home energy storage incentives?

Yes, there are home energy storage incentives for those who do not live in eligible communities and high fire-risk areas. The approved developers will be able to discuss the Self-Generation Incentive Program general market incentives still available to all customers.

What are solar incentives?

Solar incentives come in two main forms: federal programs, which apply nationwide, and state or local programs, which vary depending on where you live.

Are there special solar incentives for low- and moderate-income families?

Many states have special solar incentives for low- and moderate-income (LMI) families and underserved communities. These programs often offer extra rebates, grants or financing to lower upfront costs and widen access to solar. For example:

Explore SCE's Self Generation Incentive Program, which offers rebates for battery storage systems to help manage energy use and costs efficiently.

Buy and Sell Solar Panels, Inverters, Batteries, Solar Lights, Components, or BOS parts on Sunhub, the Solar E-Commerce Marketplace.

Discover which solar programs is right for you and how we're advancing solar energy in Florida while keeping bills among the lowest in the nation.

Get up to 100 percent in incentives for installing battery storage or solar plus battery storage. The Self-Generation Incentive Program (SGIP) is a California financial rebate program. The program helps ...
