EPC energy provides containerized energy storage systems that help achieve a sustainable future. We can build or add energy storage to existing PV projects.

The solar battery storage cabinet can be efficiently utilized both in large-scale Solar Farms and residential solar systems for green energy storage, guaranteeing stability and security in the power ...

Integrate it with your energy storage or PV system to capture excess renewable energy during peak production times. The system's scalability allows you to store the exact amount of energy needed, ...

From outdoor energy storage system cabinets to integrated cloud-based controls, EPC Energy has you covered. We want to help you create a sustainable future.

In today's fast-evolving energy landscape, securing an energy storage system EPC project bid isn't just a milestone--it's a gateway to unlocking grid stability, cost savings, and sustainable growth.

Huijue Group's Mobile Solar Container offers a compact, transportable solar power system with integrated panels, battery storage, and smart management, providing reliable clean energy for off ...

The Government of Uganda has authorised engineering, procurement, and construction (EPC) contractor Energy America to build a 100MWp solar PV plant, integrated with a 250MWh battery ...

Designed for C& I project developers, EPC contractors, installers, and renewable energy integrators, the Wenergy ESS cabinet offers flexible capacity configuration and supports both on-grid and off-grid ...
