-----

The price of solar PV modules has decreased significantly over the past decade, with the cost of solar power falling below grid parity in many parts of Europe, thereby increasing market competitiveness, ...

Markus Hoehner and Rajan Kalsotra, CEO and Senior Consultant at the Bonn-based EUPD Research, discuss the growth trajectory, challenges and opportunities within the EU solar PV ...

A comprehensive analysis of the 2025 European commercial and industrial photovoltaic policy map, focusing on deployment strategies, incentive comparisons, and zero-investment models ...

Explore Europe's 2024 solar boom, with gigawatt-scale projects in Germany, Spain, and beyond driving a historic shift in the continent's energy landscape.

Building on the foundational work carried out by SolarPower Europe, NSEFI, and the EU-India Clean Energy and Climate Partnership (CECP) in 2023, this project seeks to foster collaboration between ...

Among the solar manufacturing projects awarded are a 1.5GW heterojunction module assembly line from Chinese solar manufacturer Trina Solar in Spain, and Italian solar manufacturer ...

Holosolis announced Europe's largest PV module gigafactory, to be built in Moselle, France. Aiming to accelerate Europe's solar PV manufacturing capabilities to ensure continental energy security, the ...

This article focuses on the key changes shaping the European solar market in 2026, analysing how PV module selection influences project bankability, generation stability and long-term ...
