What is allpowers SF400 flexible solar panel?

ALLPOWERS SF400 Flexible solar panel are made in Monocrystalline solar cells, whose conversion rate can reach 23%. Honeycomb ETFE is used on the surface, and the unevenness forms refraction to collect sunlight from different angles. Coupled with the Solar Connector port with minimal loss, you can get more power at the same time.

What is a 400W solar panel?

EcoFlow's 400W solar panel comes complete with a protective case that doubles as a sturdy supporting stand. Simply set up your panel anywhere and conveniently adjust its angle to get the most sun possible. Ready for the outdoors. Made from durable and flexible materials, the portable solar panel is perfect for off-grid living and travel.

Is a 400W solar panel waterproof?

The 400W rigid solar panel is designed for the outdoors. With an IP68* waterproof rating and a robust anti-corrosive aluminum frame, the panel can withstand a windspeed of up to 130mph and a significant snow load of up to 113lb* and continue to capture solar energy for years to come.

When weighing your options for a Flexible vs Rigid 400W Solar Panel, the choice boils down to your mounting surface and longevity goals. For most users, Rigid 400W solar panels are the ...
