As electricity costs continue to rise and energy supply becomes increasingly unstable, energy storage is emerging as a key solution for Commercial & Industrial (C& I) businesses in France.

With revenues in the UK market under pressure, Harmony has focused on projects across France, Germany, and Poland. Speaking at the Energy Storage Summit in London last year, ...

With the ability to power approximately 170,000 homes for two hours, more than the entire population of Nantes, the site will play a pivotal role in boosting grid resilience, cutting carbon emissions, reducing ...

Spread across five sites in France, these projects, ranging from 2 MW to 5 MW, represent a total of 20 MW of new storage capacity for the national grid. They will support the ...

TAGENERGY, a global leader in low-carbon energy solutions, launches construction of France's largest battery energy storage platform (France, Marne). This landmark project marks the ...

TotalEnergies has deployed a Saft lithium-ion (Li-ion) battery energy storage system (ESS) at Dunkirk, Northern France in a frequency response project that will serve as a model for other sites.

Alpiq has acquired the Chevir battery storage facility, a 100MW/200MWh site in the port of Nantes Saint-Nazaire, France, from Harmony Energy, furthering its focus on battery storage facility ...

France has taken a major step in expanding its energy storage capacity with the activation of a 100 MW/200 MWh battery energy storage system (BESS) at the port of Nantes-Saint ...
