GoodWe SMT 50-60kW Series inverter is ideal for medium and large-scale commercial installations. Harvest solar energy and generate environmental-friendly power for increased return on investment ...

Thanks to its high efficiency levels and a maximum of 6 MPPT and 12 inputs, it is possible to achieve impressive continuous performance of the PV system.

SMT 50-60kW Series is a pioneering inverter that guarantees an earlier generation of power and a longer working time in order to maximise long-term returns and profitability in safe operating conditions.

With max. 15A DC input current per string, the SMT 50-60kW Series is compatible with different types of high-power modules, which ensures more solar power absorption making it one of the most ...
