They transform solar-sourced DC into AC and store unused energy in high-performance battery packs, providing clean, renewable backup energy to mission-critical telecom equipment.

These sophisticated enclosures are designed to safely house and manage large battery modules, forming the backbone of reliable energy storage. They enable us to capture and store ...

SLENERGY provides advanced energy storage cabinets with intelligent control, high safety, and long-term performance for commercial and industrial power applications.

The LFP High Voltage Rack Storage Battery Cabinet is an eco-friendly, high-voltage rack-mounted battery cabinet designed for seamless integration and intelligent energy management.

Through the combination of advanced LiFePO₄ batteries with smart battery management and compact design, it offers safe, reliable, and scalable energy backup for mission-critical applications.

Meet YD/T 1537-2015 outdoor cabinet standard, cabinet protection level: IP65 protection level. The cabinet supports 19-inch standard racks, and supports the installation of various devices that meet ...

Housed in a single indoor cabinet, it combines a high-performance 50kW power conversion system with 100kWh of advanced LiFePO₄ storage, ensuring safe, efficient, and reliable energy management.

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency applications, our solutions offer remote ...
