Where can I buy a solar generator?

Get the EcoFlow solar generator at Amazon (1 solar panel), Lowe's (solar panels sold separately), The Home Depot (solar panels sold separately), or EcoFlow (1 solar panel).

How do I choose a solar generator?

Generator Output: Ensure the solar generator can handle the surge wattage and continuous load. For best results, choose a solar generator with sufficient surge capacity and battery size, and consider supplementing with solar panels to recharge during outages. What devices can a 1000W solar generator typically power?

How do I choose the right size solar generator for camping?

Choosing the right size solar generator for camping depends on the devices you plan to power and how long you'll need them running. Consider these factors: Wattage Needs: Add up the wattage of all devices you want to use simultaneously, like lights, fans, or small appliances.

Why should you buy a solar generator?

While a generator with solar panels can be useful for anyone who travels and stays in remote off-grid places, it can also serve as a reliable backup energy source in case of a natural or man-made disaster. If the primary purpose is travel, look for solar generators that help make traveling simpler.
