Smart Dongle-4G is the 4G communication system for single-phase and three-phase investors Huawei.

Huawei's communication stick transforms photovoltaic systems from static installations into smart energy networks. By enabling real-time monitoring and remote control, this technology helps solar ...

This document describes how to connect inverters to the FusionSolar Smart PV Management System through the Smart Dongle (SDongleA or SDongleB, also referred to as Dongle). For details about the ...

The HUAWEI Smart Dongle 4G offers a simple and robust ...

Designed to support up to 10 inverters simultaneously, the Huawei Smart Dongle maximizes energy efficiency and network stability. Installing this module is extremely simple, thanks to its plug and play ...

Connect the RS485A1 and RS485B1 pins from the COM-port of your inverter via a twisted pair cable to the two screw terminals of the USB-adapter. A possible cable is a CAT5e cable where ...

Via 4G connection, Smart Dongle supports up to 10 inverters to communicate with the solar management system through hassle-free plug and play. Once plugged in, the WLAN access point ...

HUAWEI Smart Dongle-4G is an advanced communication device designed to enable solar inverter connection to become more advanced. With the support of stable and fast 4G wireless connection, ...
