Highjoule's Outdoor Photovoltaic Energy Cabinet and Base Station Energy Storage systems deliver reliable, weather-resistant solar power for telecom, remote sites, and microgrids.

All-in-One Outdoor Energy Storage Cabinet integrates a 125kW bi-directional PCS inverter and 215kWh LiFePO4 battery into a rugged, space-saving solution for commercial/industrial applications.

Designed for outdoor deployment, the cabinet features weather-resistant construction, efficient ventilation or air conditioning, and options for battery and DC distribution integration.

HuiJue's outdoor weatherproof enclosure cabinet box solutions are developed for demanding field applications where stability, safety, and thermal efficiency are essential for continuous operation.

With its IP54-rated protective enclosure and integrated lifting and transport features, this cabinet can be deployed quickly and relocated as needed. Its modular internal layout allows easy service access ...

Designed for harsh environments and seamless integration, this IP54-rated solution features a 105KW bi-directional PCS, optional air- or liquid-cooled thermal management, and parallel operation ...

It is built specifically for outdoor installation and integrates advanced LiFePO4 battery technology, a high-level battery management system, and secure weatherproof housing, making it ideal for ...

Our 200KWh Outdoor Cabinets energy storage system is built with IP54 protection, ensuring it can withstand harsh weather, from scorching sun to torrential rain.
