Will Indonesia build a battery energy storage system by 2022?

The agreement was made with other state-owned bodies, such as the Indonesian Battery Corporation, to build the Battery Energy Storage System by 2022. However, no information has yet been revealed about the Battery Energy Storage System's location or specific functions.

Is Surabaya a pilot city for energy transition in Indonesia?

Surabaya, Indonesia Sentinel -- Surabaya, the capital of East Java, has been selected as a pilot city for energy transition and efficiency efforts in Indonesia. The city officially launched its building sector decarbonization program on April 16, 2025, under the Sustainable Energy Transition in Indonesia (SETI) initiative.

Will Tesla invest in Indonesia's battery energy storage system sector?

There have been talks with Tesla, with plans to invest in Indonesia's Battery Energy Storage System sector. Tesla has an outstanding reputation in its production of technology that is carbon neutral. The BESS produced and used by Tesla has a relatively low negative environmental impact.

Indonesia's state-owned utility and battery producer have launched a 5MW battery energy storage system (BESS) pilot project as it seeks to move away from diesel-generated power.

Johannes Anhorn, SETI Project Consortium Coordinator, stated that now is the right time to start this project in Surabaya, especially with the new government. The project is expected to bring ...

Indonesian state-owned utility PLN has signed a memorandum of understanding (MOU) with the Indonesia Battery Corporation (IBC) to build a 5 MW battery energy storage system (BESS) pilot ...

The Battery Energy Storage System is a pilot project and is a concrete example of the government's attempt to shift away from diesel-generated power and transition to cleaner energy.

Surabaya's battery energy storage project demonstrates how smart infrastructure can power sustainable urbanization. As Indonesia targets 23% renewable energy by 2025, such initiatives provide the ...

The Indonesian government recently announced a milestone energy development plan, which will build a photovoltaic power generation system with a total scale of 100 ...

Indonesia Surabaya Energy Storage Project No 1

Source: <https://esafet.co.za/Tue-20-Jun-2017-815.html>

The SETI project, a joint effort between the Indonesian and German governments, is designed to accelerate the decarbonization of the industrial and building sectors through the ...

Summary: As Surabaya accelerates its transition to sustainable energy, the city's power storage project bidding offers critical opportunities for global suppliers.
