This eligibility type includes property that is instrumental for communication and/or transportation to occur. Over time, the insurance industry has concluded that these types of property are best covered ...

Tangible and intangible assets receive different accounting treatment. While the physical makeup of a computer is different than that of a building and a delivery truck is larger than a moving dolly, such ...

Base stations use RF power amplifiers (radio-frequency power amplifiers) to transmit and receive signals.

Movable assets include items that are not necessarily part of the building itself. Movable assets have an asset purchase cost of \$5,000 or greater per unit and depreciate monthly for the life of the asset. A ...

Because the system operates at such low power, a frequency can be used to carry a phone conversation in a nearby cell without interference.

Power Supply: The power source provides the electrical energy to base station elements. It often features auxiliary power supply mechanisms that guarantee operation in case of lost or ...

Tangible movable property means property of a sophisticated and technological nature, including any computer or data processing equipment, either hardware, software, or both, which is capable of ...

For each barge line, towing, and other water transportation company or private car company, only the major movable property owned or used but not locally assessed or otherwise assessed in this state ...
