Where is Ivory Coast's first solar power plant located?

Boundiali (Ivory Coast) (AFP) - The sun beats down from a cloudless sky on the town of Boundiali, where Ivory Coast's first solar power plant embodies the drive to embrace clean energy without abandoning fossil fuels. Issued on: 07/06/2024 - 11:51 Modified: 07/06/2024 - 11:49

Which companies are developing solar power plants in Ivory Coast?

The Egyptian company Elsewedy Electric is also among the potential developers of the Laboa and Touba solar plants. The same goes for Infinity Power Holding and Nareva Holding, the subsidiary of the Moroccan group Al Mada. The selected IPPs will build solar power plants capable of delivering 60 MWp to the national grid in Ivory Coast.

Who financed the Ivory Coast solar power station?

The 75.6-million-euro (\$82.1-million) cost of building the solar power station was financed by Ivory Coast, a German loan and a European Union grant. "This is the result of the EU's long-standing commitment to the renewable energy sector, with almost 140 million euros since 2017," EU ambassador to Ivory Coast Francesca Di Mauro told AFP.

What is the climate like in northern Ivory Coast?

Unlike the wetter, cloudier south, the climate in northern Ivory Coast bordering Burkina Faso and Mali is hot and dry for around eight months of the year. "Irradiance is very high" in the region, plant engineer Franck Alain Yayo told AFP, referring to the intensity of the Sun's energy.

Under the unyielding gaze of the sun, Boundiali, a town in Ivory Coast, hosts the nation's inaugural solar power plant, symbolizing a dual commitment to clean energy and traditional fossil ...

We specialize in solar energy solutions, including solar air conditioners, fans, refrigerators, freezers, water heaters, and complete solar home systems in short, everything solar. We're really ...

Standard solar modules fail in hot, humid climates. Learn how to adapt solar panel design for Ivory Coast to ensure longevity, reduce risk, and build a profitable brand.

The sun beats down from a cloudless sky on the town of Boundiali, where Ivory Coast's first solar power plant embodies the drive to embrace clean energy without abandoning fossil fuels.

Work is underway on a 50 MW solar project in the Ivory Coast. The country's Minister of Mines, Petroleum

and Energy, Mamadou Sangafowa-Coulibaly, laid the first stone of the plant during ...

Ivory Coast's first solar power plant symbolizes the nation's commitment to embracing clean energy while still utilizing fossil fuels. Unlike the wetter, cloudier south, the climate in the ...

The Bondoukou Solar PV power plant will generate 85 GWh of clean energy, powering approximately 358,000 households, and will offset more than 52,000 tons of CO2 emissions. The ...

AMEA Power has officially started construction on a 50MW solar PV project in Bondoukou, Ivory Coast, marking a major step toward the country's clean energy transition. The groundbreaking ...
