JA SOLAR JAM54S31-385MR 385W full-black solar panel, assembled with 11BB PERC cells, the half-cell configuration of the modules offers the advantages of higher power output, better temperature ...

Powered by high-efficiency PERCIUM cells, this series of high-performance modules provides the most cost-effective solution for lowering the LCOE of any PV systems large or small.

JA SOLAR JAM54S31-385MR 385W full-black solar panel, assembled with 11BB ...

The JA Solar 385W Solar Panel is a large panel which incorporates the latest tech to achieve high performance and open circuit voltage.

The JA Solar JAM60S20-385/MR is a 385W, half-cell solar panel module, which is assembled using multi-busbar PERC cells (mono). The half-cell configuration of the module ensures high power ...

This high-performance PV module, powered by high-efficiency PERCIUM cells, offers the advantages of higher power output, reduced shading effect, better temperature-dependent ...

Assembled with high-efficiency PERC cells, the half-cell configuration of the modules offers the advantages of higher power output, better temperature-dependent performance, reduced shading ...
