How much electricity does Kingston generate a year?

Kingston's nine units boast a summer net capability of 1,398 megawatts. It can generate approximately 10 billion kilowatt-hours a year -- enough electricity to power approximately 817,830 homes. To meet the demand, Kingston burns about 14,000 tons of coal a day, an amount that would fill 140 railroad cars.

What are the utilities like in Kingston?

Utilities in Kingston depend on whether the house falls under the control of Kingston Utilities or external providers like Ontario Hydro, Union Gas, etc. The non-electricity utilities also depend on the house's insulation and building materials. Electricity will vary.

Who is Kingston hydro?

the Ontario Energy Board-licensed distributor of electricity in Central Kingston. Kingston Hydro owns the wires, poles, transformers and meters that bring electricity from the provincial electricity transmission grid to 28,000 homes and businesses in Central Kingston, Canadian Forces Base Kingston, and parts of Barriefield Village.

What is a Kingston hydro scorecard?

Scorecard measures are used by OEB to assess Kingston Hydro's effectiveness in achieving customer focus, operational effectiveness, public policy responsiveness, and financial performance. If you see a downed tree branch or wire, stay away and call Utilities Kingston, 24/7 at 613-546-1181.
