As one of the earliest international hi-tech developed photovoltaic-production companies in China, Linuo Power specializes in research and development, manufacturing and sales of solar modules, and is ...

Linuo Power Group is an international high-tech and growing group company, specializing in R& D, which manufactures and sells solar cells, modules, and PV power generation systems.

One of the company's flagship solar energy projects is the Linuo Solar Power Station in Qinghai Province, China. The power station has a total installed capacity of 200 MW and is one of the largest ...

Linuo Photovoltaic Group is the core enterprise of Linuo Group's solar panel, which is an international high-tech enterprise specializing in the R& D, manufacturing and sales of high-efficiency solar cells ...

The business covers "photovoltaic +" applications, wind power generation, smart operation and maintenance, integrated energy services, carbon asset management and other fields, and outputs ...

Focusing on the three strategic cores of "comprehensive energy, decarbonization and digital intelligence", Linuo Power is deeply engaged in the development and utilization of new energy ...

Our application systems for Linuo Group's solar PV products, such as a solar PV power generation system, solar street lamp, solar traffic system, portable power sources and home power systems ...

Linuo Power is committed to technical innovation and system integration of its solar PV plants - our large solar PV plant systems can reach 82% of their designed efficiency.
