Solar Reflecting Coating How Is Solar Control Measured? Solar Factor Or "G" Value Spectral Selectivity Insulated Glass Unit Solar control performance is achieved through the use of a very thin, transparent, and permanent coating that helps limit the solar energy entering inside. It helps control solar gain to various levels depending on the coating while allowing natural daylight in and views on the outside. See more about how glass is coated. See more on guardianglass Missing: London Zhongji Must include: London Zhongji Saint-Gobain Glass COOL-LITE™; SKN Solar Control Glass - Saint Gobain Glass Our COOL-LITE™; SKN range is specifically designed to provide neutral solar control for commercial buildings alongside large glazed apertures in residential projects.

SunGuard™; Solar is a commercial solar control glass that reflects the sun's energy. It is ideal for applications where excessive solar heat gain could lead to uncomfortable living environments.

In hot climates, solar control glass can be used to minimise solar heat gain and help control glare. In temperate regions, it can be used to balance solar control with high levels of natural light.

As well as helping to control heat levels, solar control films will deliver additional benefits such as glare reduction and fade mitigation. The solar control films available are listed below. Please click on the ...

In addition to heat management, our solar control glass also reduces glare, making it an excellent choice for spaces with screens, monitors, or displays where excessive glare can be distracting and ...

Solar control glass can help mitigate glare from the sun and increase the visual comfort of building occupants, particularly if a glazed facade is directly exposed to the sun and with a high window-to ...

Solar control glass consists of layers of special material on the glass, invisible to the eye, which repels solar heat but lets the sunlight in. This major energy saving benefit, in hot conditions, reduces the ...

Explore solar control glass for energy efficiency, UV protection, and temperature regulation. Perfect for homes & offices. Contact us now!
