LONGi BIPV: Solar roofs & parking with 21.5% efficiency. Weather-resistant, 25-year ROI. Transform buildings into power generators.

LONGi solar panels cost about \$3.03 per watt, which is in line with the national average cost of installing solar. With a competitive warranty and a proven reputation, LONGi solar panels deserve a spot on ...

What is the difference between the LONGi Roof BIPV system and a traditional distributed rooftop PV system? LONGi roof BIPV system integrates the PV power generation system with high-quality metal ...

LONGi recently unveiled its upgraded BIPV roof product, called ROOF 4.0, in Beijing. (Photo Credit: LONGi) One of the largest solar PV manufacturers globally, LONGi has introduced a ...

Engineered for metal roof power generation, LONGi Hi ROOF S features upgraded HPBC 2.0 technology and patented damage-free connections, creating a 4-Way Defense PV system against ...

Vertically Integrated Solar PV Value Chain LONGi's technological and manufacturing leadership in solar wafers, cells and modules underscores our commitment to helping accelerate the clean energy ...

What is the difference between the LONGi Roof BIPV system and a traditional distributed rooftop PV system? What are the applications best suited for the LONGi Roof BIPV system?

Backed by advanced technologies, LONGi solar panels feature excellent power ratings and top conversion efficiencies, and can be used across all market segments.
