The meeting focused on the progress of Qair's innovative STOR"SUN projects facilitated by the EDB. These hybrid plants integrate photovoltaic panels (PV) with battery energy storage ...

Mauritius is set to benefit from Qair's new hybrid solar and storage project, a significant development that will enhance the nation's energy security and accelerate its shift towards ...

Qair has secured a loan from SBM Bank to build 60 MW of hybrid solar and storage projects in Mauritius, supporting the nation's goal of 60% renewable power by 2030.

A notable feature of this tender is the optional inclusion of modular battery energy storage systems (BESS), indicating a strategic move towards hybrid, dispatchable renewable ...

French independent renewable energy producer Qair has closed a loan agreement to back the construction of 60 MW of hybrid solar-storage parks in Mauritius.

This article explores bidding opportunities, technical requirements, and market trends for solar-plus-storage projects in Mauritius, with actionable insights for global investors and contractors.

Qair announces the closing of a new loan to support the implementation of a hybrid solar and battery storage project in Mauritius.

The project is scheduled for completion by the end of 2024 and represents a critical step in Mauritius's ambitious plan to source 60% of its energy from renewables by 2030.
