The TAA Compliant product is built for critical IT, data center, and industrial environments, the M90C ensures high-efficiency performance, easy expansion, and maximum uptime across 208/120V and ...

Highly efficient, scalable 200 to 500 kVA/kW 3-phase UPS featuring modular, redundant design and low TCO for medium and large data centers and mission critical environments.

The Eaton BladeUPS is a three-phase, scalable and modular UPS for high density computing environments, including virtualized or machine learning IT applications.

AZE's All-in-One Energy Storage Cabinet & BESS Cabinets offer modular, scalable, and safe energy storage solutions. Featuring lithium-ion batteries, smart BMS, and thermal management, they're ideal ...

With flexible installation design, the UPS and battery cabinets can be configured into a tower, side-by-side, or integrated within a rack to satisfy various space needs and maximize the use of the data center.

The joint initiative offers a competitive and future-proof solution: an industry-first integrated, on-site power generation system paired with modular data center construction. This approach enables data ...

High performance 3-Phase power protection for any size data center and other critical applications.

The Vertiv(TM) PowerUPS 9000 is a high-power density, energy-efficient, and compact uninterruptible power supply (UPS) system. It is designed to support IT applications from traditional computing to ...
