In recent years, Mubon has gradually shifted its focus to upstream materials for photovoltaic cells, such as R&D, production and sales of monocrystalline silicon ingots and silicon ...

The Mubang Hi-Tech 10GW TOPCON photovoltaic cell production base and new energy headquarters project is the first photovoltaic cell project in Ezhou and the largest photovoltaic cell ...

[Hubei's largest photovoltaic cell project officially started]On August 16, 2022, Hubei Mubang Hi-Tech Photovoltaic Cell Production Base officially started construction in Echeng District, Ezhou City, with a ...

Based in China's Jiangxi Province, Mubang Hi-Tech is a supplier for mono-Si ingots and wafers. The 10GW TOPCon cell production base represents the company's first step into the PV cell ...

The list consists of 11 PV power generation projects with a combined capacity of about 6 GW, along with 6 PV manufacturing projects were unveiled. Aiko Solar's high-efficiency solar cell & ...

In March, Mubang Hi-Tech announced its plans to invest RMB 4 billion (\$554.2 million) in an n-type high-efficiency monocrystalline silicon ingot fab (see China Solar PV News Snippets).

Guangxi Mubang High-tech 10GW-N high-efficiency battery production project is a major project to speed up industrial transformation and upgrading in Wuzhou and build a modern industrial ...

Upon the completion of the 1.1 billion yuan transaction, the company will expand the business to the research and development, production and sales of solar wafer and silicon rods. On ...
