What is a 40kW inverter for off-grid use?

The 40kW inverter for off-grid use features high-quality pure sine wave AC output and a 3 phase 4 wire connection. It has a no battery design, a wide DC input voltage range, an LCD display, and converts DC power to AC power in solar power systems.

What is an off-grid inverter?

Off-grid inverters are vital in maintenance, troubleshooting, and protection against electrical fires. Battery-based inverters and inverter chargers convert DC battery power into AC mains power so you can run standard 230v appliances off a battery. Inverter chargers can also be plugged into a generator to charge your batteries through the inverter.

Can an inverter charger be plugged into a generator?

Inverter chargers can also be plugged into a generator to charge your batteries through the inverter. Founded in 1964 by the Scott family, Selectronic Australia quickly established itself as a major manufacturer of custom made transformers and inductors for the local electronics industry.

We focus on inverters that are purpose-built for off-grid living, not grid-tied compromises. Our range prioritises transformer-based technology, chosen for its durability, surge capacity, and proven ...
