What is the Niue strategic energy road map?

The Niue Strategic Energy Road Map 2015-2025 (NiSERM) builds on the 2005 Niue National Energy Policy and the Niue National Strategic Plan (NNSP) 2014-2019, and is aligned to current national, regional and international emerging issues relating to the energy sector.

Will Niue meet 80% of its electricity needs by 2025?

The NiSERM outlines Niue's aspiration to meet 80% of its electricity needs from renewable energy sources by 2025, which would in turn reduce the country's high reliance on imported fossil fuel. This aspiration underpins Niue's contribution in this INDC, outlined in Section 6.

Is Niue dependent on imported fuel?

However Niue is 96% dependent on imported fuel for power generation and 100% dependent on imported fuel for land, sea and air transportation. Reliable, affordable, secure and sustainable energy supply is key to achieving prosperity for all Niueans.

Why did the government of Niue develop the niserm?

The Government of Niue (GoN) decided to develop the NiSERM to guide the whole-of-country approach towards achieving a vision shared by the government, public stakeholders, private operators, communities and development partners, the vision of: A sustainable and secure energy sector. There are no upcoming events.

No person who is a consumer of electrical energy supplied or sold by the Government shall have any claim against the Government in the event of any failure of the supply of any such energy through ...

With the upcoming reintegration of the BESS and solar farms by December, Niue is poised to move closer to its goal of 80% renewable energy production by the end of 2025. The ...
