Does Vivint install solar panels?

In addition to the two main solar panel brands, Vivint also installs two kinds of solar batteries to provide backup power, and it offers free solar monitoring apps and smart home technologies along with the inverters and microinverters it installs from Enphase and SolarEdge.

How much does a Vivint Solar System cost?

These numbers are based on average system sizes and installation costs for the solar panel brands Vivint carries. These prices fall below the industry average of \$20,979 for a similarly-sized system, meaning Vivint is below average when it comes to cost.

Who is Vivint Solar?

No current offers available. Vivint Solar has been in the industry for more than ten years. This company started after a home automation and security company decided that solar energy was the wave of the future and something necessary for their survival in the industry.

Does Vivint offer a solar lease?

One of the upsides of Vivint and its parent company, SunRun, is that they make solar super accessible to a wide range of customers. Although the solar leases they push on customers aren't as beneficial as other options, they require no down payment and often no credit check and they provide instant energy savings in most cases.
