What is an outdoor telecommunication enclosure?

Damage-resistant and reliable outdoor enclosures are key for outdoor telecommunication applications from cell tower sites and fiber optic networks to substations. These specialized cabinets house and protect sensitive equipment like routers, switches, and other network devices.

Where are outdoor Telecom enclosures made?

Every outdoor telecom enclosure we manufacture is designed, fabricated, and assembled entirely in the USA. Our commitment to American manufacturing means you receive consistent quality, faster lead times, and complete Build America, Buy America (BABA) self-certification documentation with every order.

Who makes outdoor Telecom cabinets?

Since 1989, we've manufactured outdoor telecom cabinets in America's Heartland, providing telecommunications companies, utilities, and network operators with BABA-compliant solutions that protect critical equipment from the harshest environmental conditions.

Why should you choose a NEMA 4X outdoor enclosure?

Corrosion can be a big problem in many different enclosure applications, and a NEMA 4X outdoor enclosure can help protect your devices. AZE can also provide customize products or projects based on requirements, choose from a broad range of models, configurations, mounting options, sizes, finishes and type ratings.

Built with durability, weatherproofing, and versatility in mind, these enclosures are ideal for industries such as telecommunications, energy storage, power distribution, and outdoor monitoring systems.
