-----

500kW power output with modular design, supporting expansion up to 1.5MWh (customizable based on your product specs). Seamless integration with existing inverters for hybrid energy systems.

Reduce peak demand charges and save on energy costs. Pair with on-site solar and lower both carbon footprint and energy costs.

This integrated solar battery storage cabinet is engineered for robust performance, with system configurations readily scalable to meet demands such as a 100kwh battery storage requirement.

The equipment can automatically charge the storage batteries using valley-time urban electricity with a low cost and can be set to the long-time status of interruptible power supply.

It adopts door-mounted embedded integrated air conditioning, which does not occupy cabinet space, improves the available space of outdoor cabinets, has better structural integrity at the ...

o Cluster management reduces internal circulation, extending lifespan. o Supports peak shaving, dynamic capacity expansion. o Rapid grid response for frequency stabilization. o VDE 4110 certified ...

The RS485 certified Outdoor ESS Cabinet has a robust and rugged internal and external structure. It is delivered >95% pre-assembled, having already been manufactured, assembled, ...

Built for rapid deployment, our 500 kW capacity batteries are a fast way to increase your efficiency, on or off the grid. Packaged with everything you need - from fire protection to HVAC - they're an effective ...
