The Intech Energy Container -- or ECON -- is a modular, pre-configured off-grid power solution. It combines solar PV, battery storage, inverters, and energy management in a rugged container.

Our containerised off-grid solar solutions are fully customizable, and our team of experts provides end-to-end support, from site assessment to installation and maintenance.

The MEOX Containerized Solar Power System combines rugged steel construction with cutting-edge solar technology, delivering reliable off-grid energy solutions in 20ft and 40ft configurations.

The MOBIPOWER-14K is a containerized hybrid system that combines solar arrays, advanced battery storage, and a 14 kW diesel generator to deliver reliable, large-scale power for mission-critical ...

Among the innovative solutions paving the way forward, solar energy containers stand out as a beacon of off-grid power excellence. In this comprehensive guide, we delve into the ...

MEOX hybrid Off Grid Container Power Systems, built on the core framework of hybrid solar container systems for remote areas, combine DC coupling, VSG grid-forming, and intelligent EMS to maximize ...

MOBIPOWER hybrid clean power containers combine battery energy storage systems with off-grid solar containers for remote industrial sites in Canada & USA.

Among the innovative solutions paving the way forward, solar energy containers stand out as a beacon of off-grid power excellence. In this ...
