The Battery Energy Storage System (BESS) enables Ottawa to integrate six newly approved solar projects and reduce increasing reliance on gas-fired electricity during peak hours.

The facility, called the Skyview 2 Battery Energy Storage System, will be built in the community of Edwardsburgh/Cardinal, approximately 80 kilometres south of downtown Ottawa.

More than 60 speakers lined up Thursday to speak to the City of Ottawa's Agricultural and Rural Affairs Committee over a proposal to build a vast electrical storage facility in West Carleton.

A city committee has passed new regulations establishing land use policy for companies looking to build battery energy storage systems (BESS) in Ottawa.

Gatineau-based energy company Evolgen is looking to build a battery energy storage system (BESS) in the community of South March in a project the company says will help address a...

Workers check battery storage pods at a lithium-ion battery storage energy facility in Arizona last year. Ottawa is looking at regulatory changes around these types of facilities.

On May 9, 2024, the IESO announced that ten proposed BESS projects were selected, totaling 1,784 megawatts (MW) of energy storage, including two to be located in rural west Ottawa.

A city committee passed new regulations Thursday that lay out the ground rules for companies looking to build battery energy storage facilities in Ottawa, but residents are split on ...
