How will 5G work in Pakistan?

5G is rolling out unevenly in Pakistan, led by Jazz and Zong in major cities, with real applications emerging in smart cities, telemedicine, and industrial automation. Amazon Kuiper's satellite internet could fill gaps where terrestrial infrastructure can't reach economically.

Does Pakistan offer 5G coverage in 2025?

As of 2025, 5G coverage Pakistan offers is concentrated in these cities plus selective expansion to Faisalabad, Multan, Peshawar, and Quetta. Coverage within these cities varies wildly. You might get solid 5G in one neighborhood and nothing two blocks away.

Which cities have 5G coverage in Pakistan?

Karachi, despite being the largest city and economic center, got coverage in phases across different zones. As of 2025, 5G coverage Pakistan offers is concentrated in these cities plus selective expansion to Faisalabad, Multan, Peshawar, and Quetta. Coverage within these cities varies wildly.

When did 5G start in Pakistan?

Commercial 5G services officially launched in Pakistan in December 2022 when Jazz and Zong both went live. Jazz started testing 5G in early 2022, showing off demos and running pilot projects. Zong wasn't far behind, pushing its own trials.
