---

Photovoltaic bracket cold bending machine This machine is suitable for the cold bending forming production of photovoltaic brackets: ? Maximum forming speed: 30 meters per minute; ? ...

Zhengchuang Machinery is a manufacturer of high-end roll forming machine in China. Jiangsu XinZhengchuang Machinery Co., Ltd was establish in 1995, with more than 20 years history ...

Some high-end models are equipped with PLC intelligent control systems and servo drive units, which can realize digital adjustment of bracket hole positions and dimensions to meet the ...

The photovoltaic seismic bracket forming machine is mainly composed of an uncoiler, a leveling machine, a servo feeding machine, a punching machine, a punching device, a roll forming machine, ...

The purpose of the utility model is to provide a kind of photovoltaic bracket cold-bending forming machine, cutting process does not easily cause product to become Shape.

Photovoltaic bracket cold bending equipment specializes in producing metal brackets required for solar panel installation.

Adjust the roller clearance: According to the precise thickness and strength of the sheet, adjust the clearance of the forming rollers one by one. High-strength steel requires greater forming force and ...

Shanghai SIHUA Machinery Co., Ltd. focus on researching and developing roll forming technology and innovation for automatic high-speed flying shear roll forming machine.
