What is a solar panel stand?

The perfect stand for laying out in the grass or mounting permanently. These stands are fully adjustable and come with all the necessary hardware! They provide everything you need to get up and running, all at once helping the environment too! Even better, our solar panel stands are adjustable which means it can be placed on any surface.

What are stand-alone solar lights?

As their name indicates, stand-alone solar lights are all-in-one solar light solutions. They consist of a light fitting with a stand or mounting plate, a solar panel, and a battery in one easy-to-install unit. All you need to do is mount them or stick them on the ground and walk away.

How do I make a portable solar panel stand?

Upper stand only: Upper + Lower stand: Take any solar panel with an aluminum frame on it, and make it portable. These portable solar panel stands act as legs and work perfectly with a framed solar panel 100 watts or larger.

What are solar panel stand legs?

The solar panel stand legs are the most crucial part of the whole support mount. At first, I tried making my own stand legs but found that it cost me more than just getting a good quality set online.
