What is pvpallet?

PVpallet designs reusable pallets, solar module packaging, and BOS bulk containers for residential, commercial, and utility-scale solar projects. Reduce waste, improve efficiency, and ship solar modules and balance of system components safely.

Why should you choose pvpallet?

At PVpallet, we're revolutionizing packaging for the solar energy and electrical distribution. From reusable bulk bin containers to plastic pallets and custom packaging, we've got solutions that protect your products, reduce waste, optimize storage, and simplify logistics--all while helping you hit your sustainability goals.

Does pvpallet test all solar panels?

PVpallet's standard is to target and test to the maximum weight limits as shown in the specifications. PVpallet does not warrant that all loads will perform the same as lab testing. What size solar panels do PVpallet's solar panel pallets fit?

Though we make every effort to provide an accurate shipping cost at the time of checkout, there is the possibility of additional shipping fees for outlying factors our system cannot take into account.

PVpallet offers two solar panel pallet options -- Series X and Series XL --each designed to protect solar modules while supporting efficient warehouse storage, transport, and jobsite handling.
