Does Poland need energy storage solutions?

Poland's shift toward renewable energy has accelerated significantly in recent years, creating an urgent need for energy storage solutions. According to the Energy Market Agency, Poland's installed solar capacity reached approximately 20.7 GW by the end of November 2024 - a 28% year-on-year increase.

Does Poland have a new energy storage subsidy programme?

The energy storage sector in Poland showed significant momentum even before the launch of this new subsidy programme. Through power market auctions for 2021-2028 and supplementary auctions for 2021-2025, contracts for energy storage with a total capacity of 9.5 GW were already wrapped up.

What is Poland's new energy storage scheme?

The scheme has been brewing since 2024, with the final regulation published in the Journal of Laws of the Republic of Poland in March this year. It received European Commission approval, which authorised state aid of EUR1.2 billion in state aid to support at least 5.4 GWh of new electricity storage facilities.

How big is Poland's energy capacity?

According to data from the Energy Market Agency, at the end of November 2024, Poland's installed capacity was about 20.7 GW, growing year-on-year by almost 28 percent, and the installed capacity of wind power plants was about 10.2 GW, increasing year-on-year by about 8 percent.

With solar prices dropping faster than a smartphone battery in winter (from \$0.238/W in Jan 2023 to \$0.13/W by December) [1], the country is racing to pair renewables with storage solutions.

The successful demonstration of this FTM system contributes to the further integration of renewable energy in Poland by ensuring the stable operation of the electricity grid and minimizing investment in ...

Recently, GSL ENERGY successfully delivered a 50kW/100kWh air-cooled energy storage integrated system project in Poland, paired with Deye 50kW inverters, with a total of 2 units ...

The funding call "Electricity storage facilities and related infrastructure to improve the stability of the Polish power grid" was launched by the environment ministry in the spring. The call for ...

Our company is able to comprehensively advise on a Poland's PGE Expands Battery Energy Storage Systems with The Gryfino tender is expected to attract strong interest from leading BESS developers ...
