Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail system and no ...

After an easy and efficient installation, the system can be used almost anywhere. Perfect for temporary use in previously unutilized areas, Sun2Fold enables a sustainable energy supply exactly where the ...

Thanks to the latest version of our container-based e-SPRINGBOX solar generator, you can deploy and start up a clean and silent solar power plant without any structural engineering or specialist handling.

Explore solar container homes trends in Europe: energy-efficient designs, smart communities, and EU sustainability goals.

The innovative and mobile solar container contains 200 photovoltaic modules with a maximum nominal output of 134 kWp and, thanks to the lightweight and environmentally friendly aluminum rail system, ...

Discover our range of innovative solar panels on shipping container products engineered to meet your renewable energy needs with maximum efficiency and reliability.

We design a solar container that fits your needs and send you a personalized quote.

The innovative and mobile solar container contains 196 PV modules with a maximum nominal power rating of 130kWp, and can be extended with suitable energy storage systems. The lightweight, ...
