The 112kWh outdoor energy storage system offers a robust, weatherproof solution for backup and off-grid power. Designed for flexibility and fast deployment, it's ideal for telecom, remote infrastructure, ...

Discover the latest lithium-ion cabinet design, featuring advanced safety measures like fireproof battery storage, perfect for residential and commercial energy storage applications.

We have been specializing in ICESS (Industrial and Commercial Energy Storage System) solutions for over 9 years. We currently have 87 employees, including 24 engineers.

A: Our LiFePO₄ lithium iron batteries provide 4000+ cycles, compared to 300-500 cycles in lead-acid batteries. The service life of LiFePO₄ batteries is 8 to 10 times longer than standard lead-acid batteries.

What applications is this battery suitable for? 12V LiFePO₄ batteries are suitable for many applications, including solar energy storage systems, boats and camping vehicles, emergency power supplies, ...

The HJ-G50-112F is a highly efficient and integrated outdoor cabinet energy storage system. The system adopts modular air-cooled architecture, with a rated AC output power of 50kW and a total ...

Engineered to seamlessly integrate into your home, these cabinets offer a sleek and organized solution for your energy storage needs. With secure compartments and modern design, our cabinets provide ...

This energy storage system is ideal for remote areas such as mountains, islands, border outposts, and other off-grid or weak-grid locations. When integrated with solar PV, it can reliably power telecom ...
