The New and Green Energy of Assam has invited bids to supply, install, commission, operate, and maintain a 25MW/100MWh Battery Energy Storage System (BESS) project at 400 kV

The TMV series of pumps features advanced permanent magnet technology and frequency conversion, making them highly efficient and energy-saving. These pumps are specifically designed to handle a ...

Spanish grid operator Red Electrica de Espana (REE) on Thursday launched the construction of the Salto de Chira pumped-storage hydroelectric power complex on the island of Gran Canaria, Spain, a ...

New energy storage power source in cape verde Praia, Sept. 6, 2024 (Lusa) -- Cabo Verde's first pumped storage hydroelectric power station will start operating by 2028.

French energy giant EDF says it has acquired, and agreed to co-develop, the Dungowan pumped hydro energy storage project in the New England region of New South Wales.

China has successfully completed its largest electrochemical energy storage project, showcasing advanced energy storage technologies and renewable energy integration.

Together, these efforts aim to eliminate Cabo Verde's dependence on fossil fuels by 2040. The project will ensure that all new storage capacity, especially the pumped storage system, will be fully ...

The Praia grid-side energy storage project solves real-world problems while pushing the \$33 billion global energy storage industry into new territory [1]. This Portuguese marvel isn't just ...
