Experience the next level of energy independence with our 10kW solar system and 10kWh lithium-ion battery storage, and take a substantial stride towards a greener, more self-sufficient future.

This high-capacity battery solution ensures reliable energy storage, allowing you to harness and store surplus solar energy for use during periods of low sunlight or at night.

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs.

We provide customized container energy storage systems with advanced lithium batteries for utility and commercial applications.

As a global pathfinder, leader and expert in battery energy storage system, BYD Energy Storage specializes in the R& D, manufacturing, marketing, service and recycling of the energy storage ...

We engineer and construct customized energy storage container and cabinet solutions according to the specific needs of our clients, ensuring the smooth and reliable operation of the entire system.

“GETON CONTAINERS delivered a custom folding photovoltaic container solution that reduced our diesel consumption by 85% at our remote mining site. The project was completed ahead of schedule ...

Designed for solar power plants, this innovative solution combines advanced Lithium battery storage technology with a high-performance 500kW Hybrid Inverter. [pdf]
