The P107 is one of the smallest Lithium+ batteries that Ryobi offers and is one of the most affordable as well, which makes sense. You can also find these in combo packs of batteries (P1821).

Which is better Ryobi p192 or p108?

The P192 is almost identical to the P108 in every aspect being a Lithium+ battery with the fuel gauge and having a capacity of 4.0 Ah but it is also a HP model which makes it more efficient and last longer and compliments Ryobi's brushless tools.
